Chrysalis Conference

Dear Michelle,

From all accounts the Chrysalis Conference has been a great success. The students certainly experienced a range of activities, both academic and social and have been left with a wonderful impression of Brisbane.

I would personally like to thank you for your incredible assistance in making the conference a success. From planning to execution and beyond, your experience, passion and energy ensured that as Conference organizers, we didn't have to concern ourselves about a thing.

The accommodation was meticulous and the meals were sensational. The facilities at Robertson Gardens provided a range of indoor and outdoor activities for all ages and the administration area was perfect for the students to complete their projects.

The range of activities and excursions gave the participants a true appreciation of what Brisbane has to offer and we heard that at least a couple of the students are seriously considering coming to Brisbane for their education beyond high school.

I will have no hesitation in recommending Study Tours Brisbane to anyone looking at bringing groups to Brisbane in the future and I do hope that we get the opportunity to work together again.

Kind regards,

Linda Jackson

Deputy Director Student Services

International Education Services.
